

DAMOVO GROUP ACHIEVES CISCO ADVANCED MANAGED SERVICES MASTER CERTIFICATION

Glasgow, UK – August 2010 - Damovo Group, a leader in the provision of technology and service solutions in the enterprise Information Communications Technology (ICT) sector, today announced that it has been awarded Cisco Advanced Managed Service Partner status across its worldwide operations.

As part of Cisco's Managed Services Channel partner programme, Damovo has been accredited to deliver both managed unified communications and managed security services. The certification is for partners who provide Cisco-based managed services through a direct NOC (Network Operations Centre) investment and offer management capabilities following ITIL (Information Technology Infrastructure Library) best practices for IT service management.

"Damovo has a long-established reputation as a managed services provider, so we are delighted to have received further endorsement of our capabilities from Cisco," commented Mike Parton, Chairman and Chief Executive of Damovo Group. "We recognise that clients are increasingly looking for suppliers who are not only highly capable in terms of planning, designing and implementing advanced unified communications and security solutions, but who are equally adept at supporting and managing them to the very highest standards."

Bernadette Wightman, Managing Director, Partner Organisation, Cisco, UK said: "Cisco is pleased to have Damovo on board as an Advanced Managed Services Partner. We have had a long-standing relationship with Damovo for nearly 15 years and as Damovo supports a wide array of customers across both the private and public sectors, this accreditation acknowledges the company's comprehensive capabilities in the support arena."

ENDS
